

THE Socrates Bed™

Introducing the Smartest, Low Height Healthcare Bed

Meet the most full-featured bed available for care facilities in North America. Designed to maximize comfort and simplify care, this bed exceeds the demands of healthcare providers.

**99.99%
CLEANER**
THAN UNPROTECTED
SURFACES

Intelligent

Smart designs save time, increase safety, and add comfort.

The Socrates Bed™ features an optional built-in scale and bed exit alarm to weigh patients in bed and know when they have left—you can even set away timers. Manage these settings and all other comfort settings with ergonomic and intuitive controls.

Safe

The Socrates Bed™ helps keep everyone safe. The bed's fully adjustable height allows patients to sleep in a lowered position and minimize the impact of falls. Caregivers can raise the bed to treat patients at a safe working height.

Anti-microbial (Smart Silver) paint helps prevent cross contamination and infection.

Reliable

Enjoy peace of mind knowing The Socrates Bed™ is made with the best quality components. The modular bed is easy to maintain, and parts are simple and quick to replace.

Easy maintenance, superior strength and frame flexibility allow you to standardize your bed fleet and offer all patients the comfort and intelligence that comes with The Socrates Bed™.
